

PROFILE

Joseline is a positive and proactive problem solver. She adapts quickly to new and changing environments, works well under pressure, and remains focused on achieving meaningful results. As a dedicated team player, she values collaboration, communicates effectively with others, and contributes to a supportive and productive working environment.

EDUCATION

•TU Freiberg, Germany	
PhD in Applied Mathematics, ongoing	2025-present
•University of Münster, Germany	
Research visit, Applied Mathematics	2024-present
•African Institute for Mathematical Sciences, Rwanda	
Structure Master, Mathematical Sciences	2023-2024
•University of Dschang, Cameroon	
Master’s Degree, Applied mathematics	2021-2023
•University of Dschang, Cameroon	
Bachelor’s Degree, Applied Mathematics	2018-2021

EXPERIENCE

•Private tutor in Mathematics (High school, University)	2018-2023
	Dschang
•Collaborated with a team to maintain farm productivity to help families	2018-2023
	Bandjoun

PROJECTS

- Shape derivative of the Dirichlet eigenvalue
- Modeling diseases with delay equations
- Diffusion driven instability
- Compartmental Mathematical Modeling Approach to Study the Dynamics of Bean Anthracnose Under the influence of Climate Change

CERTIFICATES / VISIT STAY

•Conference and talk	June 8-12, 2026
	Wuppertal, Germany
•Visit stay and talk	May 2-7, 2025
	Cottbus, Germany
•ICDL certificate	2024
	Rwanda
•PDEs and randomness school/conference	July 1-7, 2024
	Senegal

AWARDS

–Young African Mathematician (YAM) Scholarship	2024
–African Institute for Mathematical Sciences (AIMS) Scholarship	2023

LANGUAGES

- French
- English
- Ghomala’
- German — Basic proficiency
