EDUCATION

|                                                                      |              |
|----------------------------------------------------------------------|--------------|
| •TUBAF, Germany                                                      | 2025-present |
| PhD in Applied Mathematics (Partial Differential Equations), ongoing |              |
| •University of Münster, Germany                                      | 2024-2025    |
| Research visit, Applied Mathematics                                  |              |
| •African Institute for Mathematical Sciences, Rwanda                 | 2023-2024    |
| Structure Master, Mathematical Sciences                              |              |
| •University of Dschang, Cameroon                                     | 2021-2023    |
| Master's Degree, Applied mathematics                                 |              |
| •University of Dschang, Cameroon                                     | 2018-2021    |
| Bachelor's Degree, Applied Mathematics                               |              |

EXPERIENCE

|                                                                          |           |
|--------------------------------------------------------------------------|-----------|
| •Private tutor in Mathematics (High school, University)                  | 2018-2023 |
|                                                                          | Dschang   |
| •Collaborated with a team to maintain farm productivity to help families | 2018-2023 |
|                                                                          | Bandjoun  |
| • House manager: handle tasks such as cleaning, cooking, and childcare.  | 2014-2018 |
|                                                                          | Yaounde   |

PROJECTS

- Modeling diseases with delay equations
- Compartmental Mathematical Modeling Approach to Study the Dynamics of Bean Anthracnose Under the influence of Climate Change

CERTIFICATES

|                                        |         |
|----------------------------------------|---------|
| •ICDL certificate                      | 2024    |
|                                        | Rwanda  |
| •PDEs and randomness school/conference | 2024    |
|                                        | Senegal |

AWARDS

|                                                                         |      |
|-------------------------------------------------------------------------|------|
| –Young African Mathematician (YAM, Germany) Scholarship                 | 2024 |
| –African Institute for Mathematical Sciences (AIMS, Rwanda) Scholarship | 2023 |
